OTHER RECOMMENDATIONS:

Planning Commission on November 17, 2005, voted 6-0 to approve; no opposition.

Ayes: Steele, Schultz, Garcia, Ontai, Otsuji, Chase

Not present: Griswold

The Planning Commission placed the project on the consent agenda and voted to recommend the City Council approve staff's recommendations.

The Encanto Neighborhoods Community Planning Group has recommended approval of this project.

STAFF SUPPORTING INFORMATION:

The 2.51-acre project site is located north of Nogal Street, west of 49th Street, and south of Castana Street in the MF-2500 Zone of Southeastern San Diego Planned District within the Encanto Neighborhoods planning area of the Southeastern San Diego Community Plan. The MF zones are multiple-family zones primarily intended to provide for multiple-family residential development at varying densities ranging up to 45 dwelling units per net residential acre. The MF-2500 Zone requires a maximum of 17.42 dwelling units per net acre (du/ac) with 2,500 square feet of land area per dwelling unit.

The project area consists of vacant previously graded lands along the south side of Chollas Creek, which created a benched topography. Elevations on-site range from approximately 130-feet at the southeastern corner of the property to 82-feet along the northern property boundary. Adjacent land uses consist of a trailer park to the north across Chollas Creek, and residential land use to the west, south and east.

ITEM-338: (Continued)

STAFF SUPPORTING INFORMATION: (Continued)

The property abuts Chollas Creek on the north, 49th Street to the east, and a portion of Nogal Street to the south. The dead end portion of Castana Street exists at the northwest corner of the property. Existing unimproved unnamed alleys are located along the properties western and southern boundaries. An unimproved portion of Castana Street abuts the northern property boundary. The development of this vacant property is constrained by Chollas Creek and the numerous existing unimproved public easements.

The project site is part of the Chollas Creek Enhancement Program area adopted by the City Council in May of 2002. This development abuts the southern portion of Chollas Creek, therefore it is required to provide public access to Chollas Creek. This project is being processed through the Affordable/In-Fill Housing and Sustainable Building Expedite Program. The project would provide affordable housing per Council Policy 600-27. The project would exceed the minimum requirements for supplying Affordable Housing. The project would also allow improvement of a challenging and constrained parcel to provide residential use and affordable housing for the Community and the City.

FISCAL IMPACT:

None. All staff costs associated with processing this project is recovered from a separate deposit account provided by the applicant.

ITEM-339: Milazzo Condominiums.

Matter of the appeal by Karen Grube of the decision of the Planning Commission in approving an application for a Vesting Tentative Map to convert 250 residential units to condominiums on a 10.16-acre site located at 10024 Paseo Montril between Rancho Peñasquitos Boulevard and Cijon Street.

(See City Manager Report CMR-06-002. Vesting Tentative Map No. 128329/Project No. 43646. Rancho Peñasquitos Community Plan Area. District 1.)

STAFF'S RECOMMENDATION:

Adopt the following resolution to deny the appeal and grant the Map and uphold the decision of the Planning Commission:

(R-2006-)

Adoption of a Resolution granting or denying the appeal, granting or denying Vesting Tentative Map No. 128329 and upholding or overturning the decision of the Planning Commission.

OTHER RECOMMENDATIONS:

Planning Commission on October 13, 2005, voted 5-0 to approve; no opposition.

Ayes: Schultz, Garcia, Chase, Ontai, Griswold
Not present: Steele, Otsuji

The Rancho Peñasquitos Community Planning Board met October 6, 2004, and voted 9-2-1 to unconditionally recommend approval of this project.

STAFF SUPPORTING INFORMATION:

The property is located at the northwest corner of Rancho Peñasquitos Boulevard and Paseo Montril in the CV-1-1 zone of the Rancho Peñasquitos Community Plan Area. The site is developed with 250 residential units in eight buildings. There are 160 one-bedroom and 90 two-bedroom units in the project. There are a total of 436 parking spaces on site within three (3) parking garages, open parking and truck-under parking to support the project. Current criteria require only 420 on-site spaces.

ITEM-339: (Continued)

STAFF SUPPORTING INFORMATION: (Continued)

The project proposes a Vesting Tentative Map for the subdivision of a 10.16-acre site to convert 250 residential apartment units into condominiums on one existing lot. Section 125.0410 of the San Diego Municipal Code (SDMC) requires a Tentative Map be processed for the subdivision of land. According to San Diego Municipal Code Section 144.0444, *Findings for Tentative Maps for Condominium Conversion*, the decision maker may approve a Tentative Map for the purposes of the conversion of residential property into a condominium project if the decision maker finds the proposed conversion complies with the requirements of the Subdivision Map Act and the San Diego Municipal Code. San Diego Municipal Code Section 125.0130 provides that a Vesting Tentative Map may be filed instead as provided by the Subdivision Map Act (Section 66498.1). Staff reviewed the proposed condominium conversion, and determined it complies with both the Subdivision Map Act and the San Diego Municipal Code.

On September 15, 2005, the Planning Commission conducted a Process 4, public hearing to consider Vista Court, Ltd. and Michael Knapton's application for a Vesting Tentative Map to convert the existing 250-unit apartment complex to condominiums. The Planning Commission voted to continue the public hearing of this project to October 13, 2005, in order that the Owner's representative, Fairfield Residential, LLC, might reconsider their decision to meet the requirements of the City's Inclusionary Housing Ordinance by payment of the in-lieu alone, which was calculated at \$334,555. On October 13, 2005, the Planning Commission, after public testimony, voted unanimously, with Chairman Schultz and Commissioner Steele recusing, to approve the project, with a modification to Condition No. 10 to reduce the proposed in-lieu fee by approximately 40 percent to \$200,819 as well as provide ten (10) units of housing for sale to, and at prices affordable to, households earning no more than 100 percent of the Average Median Income (AMI).

On October 27, 2005, Ms. Karen Grube, resident of Milazzo Apartments, filed an appeal of the Planning Commission's decision to approve the Vesting Tentative Map based upon new information and City-wide significance.

FISCAL IMPACT:

None with this action. All costs associated with the processing of this project are paid from a deposit account maintained by the applicant.

- (8) Do not require relocation fees for “off-the-shelf condominium conversions. Vote: 6-0-1.
- (9) Staff should address and bring to LU&H a method to address projects that did not pay park fees when developed. Vote: 5-1-1.

- (13) Develop a one page or one page two-sided notice of tenant rights to be provided with the first notice. Vote: 6-0-1.

Recommend that the City Council approve the proposed amendments to the Condominium Conversion Regulations and associated regulations within Chapters 12 and 14 of the San Diego Municipal Code.

This is a matter of City-wide effect.

STAFF SUPPORTING INFORMATION:

On September 14, 2005, the Land Use and Housing Committee held a workshop to discuss potential amendments to the City’s regulations for condominium conversions. City Manager Report (No. 05-163) provided thirteen City Manager policy recommendations, some with sub-items, to be considered for inclusion in an amended condominium conversion ordinance. The Committee discussed the City Manager recommendations and generally supported recommendation numbers 1, 3B-31, 5-7, 9 and 10. Staff was directed to perform additional research, vetting, and/or seek City Attorney opinions on the remaining recommendations (2, 3A, 4, 12A, 12B, and 13). The Committee also recognized that resolution on controversial issues would require additional time and that it would better serve the public to immediately bring forward an ordinance that included items in which the Committee and the stakeholders were in general agreement. The remaining more controversial issues would be further researched, vetted and brought forward in a subsequent amending ordinance.

ADOPTION AGENDA, DISCUSSION, HEARINGS (Continued)

NOTICED HEARINGS: (Continued)

ITEM-340: (Continued)

STAFF SUPPORTING INFORMATION: (Continued)

The ordinance brought forward in this action represents those policies, which the Land Use and Housing Committee and the stakeholders found to be non-controversial and generally accepted. The thrust of the ordinance currently proposed to be amended relates to new regulations that would implement those policies designed to make a condominium conversion a “good neighbor.” They include: requiring condominium conversions to include requirements for specified upgrades to current standards, preparation of a Building Conditions Report; replacement of integral components of a building with a useful life of 5 or fewer years; processing requirements and findings for deviations to the development regulations; specific timing requirements for the applicant to provide the summary of tenant benefits; and amendment to the Land Development Manual to include submittal requirements for the Building Conditions Report for Condominium Conversion.

It is the intent to return to City Council at a future date with amendments associated with the Condominium Conversion Regulations. Specifically, those amendments would address the remaining items identified in City Manager Report 05-163, which include: criteria for relocation fees; increased parking ratios; on-site inclusionary housing; payment of park fees; compliance with ADA requirements; and limitations on resale of condominium conversions.

FISCAL IMPACT:

Not yet determined. Conversions are processed under deposit accounts, which are fully cost recoverable. Additional fees for condominium conversion applicants may be necessary for administration and to implement the recommended policies. Condominium conversions generally result in increased property revenues to the City. Restrictions on condominium conversions could reduce this increase.
